

$$\sum 258.5$$

Handwritten calculations for variance:

$$s^2 = \frac{(125.6 - 33)^2 + (21.1 - 33)^2 + (33.4 - 33)^2 + (70.4 - 33)^2}{(7 - 1)}$$

$$s^2 = 43.08$$

$s = 6.56$
